

Company Overview

What is WeWorked?

WeWorked is free web-based timesheet software for small businesses. Complete, review, and approve timesheets from anywhere. WeWorked makes it simple to track employee leave balances and to run detailed reports. You can create invoices from time entered and collect payments over the web.

WeWorked offers free timesheets for up to 3 users, 2 projects, unlimited clients, unlimited leave policies, and unlimited tasks. You can upgrade your account with more users, projects, and other premium features.

The Story of WeWorked

WeWorked was founded in 2009 by John Holmes II. Having worked for several small businesses that struggled with timesheets, John decided to create a product that would make timesheets simple, affordable, and accessible from anywhere. Shortly after launch, John reached out to his entrepreneur friend Will Roberts III with the idea. Will immediately came on as a partner to help WeWorked reach its full potential.

Leadership Team

John Holmes II

I was born and raised in the Washington, D.C. metro area. I received my Bachelors in Computer Technology from the historic Bowie State University (Go Bulldogs!) and my Master of Business Administration (MBA) from the progressive Kaplan University. I am a tech entrepreneur, craps shooter, music lover, and father of two precocious girls.

Will Roberts III

Born and raised in Washington, D.C., I received my B.S. in Computer Science from American University and worked for and managed software development and technical support staffs for various government, commercial, and non-profit organizations. I have been a tech investor and entrepreneur for over a decade and love to spend time in North Miami Beach.
